INFANT RADIANT WARMERS  
AMBIA - REF. 4351, 4352, 4353, 4354, 4355, 4356

The right heat at the right time

REF. 4352

Médipréma's **Ambia radiant warmers** quickly and safely warm the neonates up. Several versions are available to adapt to a wide variety of conditions, such as with mobile stand, with or without a cot, on a furniture element, wall mounting.

AMBIA

# INFANT RADIANT WARMERS

## AMBIA - REF. 4351, 4352, 4353, 4354, 4355, 4356

### PERFORMANCES

- **Temperature regulation**
  - air from 20 to 39°C (with secure access under 28°C and above 37°C). The radiant warmers offer a genuine air mode: the temperature sensors take into account the ambient temperature variations to automatically adjust radiation of the heating element and to indicate the temperature (in degree Celsius) at the baby level
  - skin from 35 to 38°C (with secure access above 37°C).
- **Radiant heating** by quartz emitter, offering reactivity and efficient warming.
- **Built in oxygen monitor** (probe in option) with measuring scale from 0 to 100% and high and low levels adjustable from 20 to 99%.
- **APGAR timer** with double «beep» at 1, 3, 5 and 10 minutes.
- **Sound and visual alarms** with advanced management. For the comfort of the neonate and the medical team, alarms are classified in 3 urgency levels, with specific sound and visual characteristics for each, depending on the degree of urgency of the action.
- **Heating power:** 600 watts (absorbed power 900VA).
- **Power supply:** 220-240V -50/60Hz
- **Electrical classification:** Class I type BF
- **Class IIb medical device.**

### DESCRIPTION

- **Control Panel with a LCD screen** for a good visibility of data and alarms. Possibility to display the information in real time in curve forms (monitoring).
- **90° swivelling heating hood** (except for model to be put on furniture)
- **Ambient lighting** built-in in the hood
- **Dimensions:** LxWxH 757x316x500mm
- **Distance between the hood and the baby:** 780mm
